## LOSES FIRST STAGE OF LEGAL CONTEST

City's Demurrer to Complaint For  
Injunction to Stop Paving  
Overruled by Judge

### EVIDENCE IS BEING HEARD

Craig et al., Seek to Prevent Council  
From Awarding Water Street  
Contract Tonight.

Circuit court was taken up today with a case filed this morning by John W. Craig et al., against Rudolph F. Scudder et al., a complaint for injunction to prevent the city of Rushville from awarding the contract for the paving of West Water street, which is scheduled to be let tonight at a special meeting of the council.

The defendants, who were listed as Mayor Scudder and the five councilmen, filed a demurrer to the complaint, in which they stated that the City of Rushville is a corporation, and should be made defendant, instead of the officers, and for a second cause stated that the complaint did not contain evidence to warrant an injunction.

The plaintiff in turn filed an amended complaint, in which the city of Rushville was made defendant, and a paragraph added to the complaint in which they maintained that the mill race, which runs along Water street, also overlaps on the 18 feet of ground which the city has set out to be paved.

Judge Sparks overruled the demurrer filed by the city and sustained the amended complaint, which contained grounds sufficient for an injunction. This action required an immediate trial of the evidence concerning the matter, and shortly before three o'clock evidence was introduced.

If the injunction suit is granted to the plaintiffs, the paving contract will not be awarded tonight, and the matter will be taken further into court by the city.

The complaint as filed this morning represented four residents who live along the north bank of the mill race, who are John W. Craig, Sarah E. Craig, Missouri Hinchman and James E. Hinchman.

According to their view of the situation as laid out in the complaint, the original plat of Rushville called for a street running east and west, which was known as Water street, and was designated as 66 feet wide.

They maintain and have quoted an act passed by the general assembly in session December 19, 1845, that Water street was vacated in order to give the mill race a course. The act passed at that time is quoted as follows, "Be it enacted by the General Assembly of the State of Indiana that so much of Water street in the town of Rushville, in the

## IN JAIL CHARGED WITH PETIT LARCENY

Al Marilee, 58, Arrested in Indianapolis  
on Complaint of Frank  
Comella, Former Employer

### TOOK SHOE REPAIR TOOLS

Sheriff Jones went to Indianapolis this morning and arrested Al Marilee, age 58 years, who is charged with petit larceny, and is in jail awaiting a hearing. He will probably be given a hearing the first thing in the morning. Marilee is charged with taking tools from Frank Comella, a local shoe repairman.

The defendant formerly was employed by Comella in his shop here as a shoe cobbler, and according to the complaint, when he left here, he took shoe repair tools with him amounting to a sum less than \$25. He was arrested at a shoe repair shop in Indianapolis, where he had found employment.

The grand jury was in session again today taking up several matters which had not been taken care of at the former sessions. It was not likely that a report would be made today, and the investigators will meet again in a day or so to continue with their work.

## EXPRESSES APPRECIATION

Harding Glad Packers and Employees  
Reached Agreement

(By United Press)  
Washington, Mar. 24.—President Harding today expressed his appreciation of the settlement of the packers' wage controversy. This administration has nearest to its heart at all times all the righteousness and helpfulness that it can give in avoiding the suspension of activities in this country, the president said. He also expressed his appreciation to Secretary of Labor Davis and representatives of the packers and employees who called at the White House today to inform him that a strike had been averted and a settlement agreed to.

## POLICE CONDUCT RAID ON A HOTEL

Grace Edwards, 27, of Arlington  
Provides \$50 Cash Bond When  
Arrested by Officers

### MAN WITH HER ALLOWED TO GO

Police, Assisted by Sheriff and Deputy,  
Make Investigation Following Complaints

The police conducted a raid last night about nine o'clock on an alleged resort in the Grand Hotel building, and one woman, who gave her name as Grace Edwards, 27, of near Arlington, was being held today on a \$50 cash bond, pending an investigation.

It is said that the police officers had received complaints recently from that neighborhood and last night were told that several couples were seen entering the building about eight o'clock, and the raid followed about an hour later.

Sheriff E. M. Jones and Deputy Sheriff Hugh Jones assisted in the raid, and stood guard at the front and rear entrances. Chief Wilfong and Patrolman Brown entered the building and conducted the search.

Several couples were found in a room, in which a death had just occurred, but according to the officers, the woman and a man, who gave the name of Carney, were found in another quarter of the building, and both were held for an investigation. Because the woman was a stranger, the man provided a \$50 bond for her appearance, and he was allowed to go.

No specific charges had been made today in police court, as the matter was to be investigated further by Prosecutor Stevens, who was busy conducting the affairs of the grand jury. It was stated that the grand jury was not investigating the matter today.

According to Prosecutor Stevens, Carney maintained that the couple was waiting in the hotel on an automobile to take them to Shelbyville, and that the automobile was in a local garage being repaired.

## LARRY M'LEAN IS KILLED

Former League Catcher, Well Known  
Here, Shot at Boston Today

(By United Press)  
Boston, Mass., March 24.—Larry McLean, former catcher for the Cincinnati Reds and New York Giants, was shot and killed here today during a brawl in a soft drink establishment.

McLean is well known in Rushville as a baseball catcher and during an off season was in a local uniform several times when Rushville had a paid team of outside players a few years ago, managed by Davison of Cincinnati. He figured in one game against the Newcastle Maxwells, that is recalled by many local fans.

### LETTERS IN DIVORCE SUIT.

New York, Mar. 24.—One of the three affidavits filed in the first open hearing of the Stillman divorce suit, contained copies of five letters, Mrs. "Fifi" Potter Stillman is alleged to have received from Frank Panzanos, French Canadian guard.

## ELKS ADDITION TO BE ERECTED

Lodge Votes at Meeting Wednesday  
Night to Build Two Story  
Structure With Basement

### BUILDING TO BE OF BRICK

Project is Already Financed by  
Members of Lodge—Gymnasium  
Features May be Added

Rushville lodge No. 1307, B. P. O. E., at a special meeting Wednesday night, voted to erect a brick addition to the present home in East Second street, during the coming summer, with a basement and two stories.

The addition will be constructed on the north end of the present Elks club, the trees having been removed there and excavation started in anticipation of such action as was taken by the lodge last night.

These plans adopted by the lodge call for a commodious basement, which will permit the installation of gymnasium features if it is possible to finance such a proposition; the whole first floor for dancing and the second floor for a large dining room and ladies parlors for entertaining.

The tentative plans are to construct the second story only twenty feet back and make the remainder of the addition only one story, but there is strong sentiment among members of the lodge to make the building full two stories now, even though the lodge should have to go in debt.

The lodge has practically completed arrangements for the financing of the improvement, a sum close to \$15,000 having been raised by Elks agreeing to take one note with a face value of \$100 and bearing interest at current rates. The notes will be paid at the rate of a fixed number each year and they will be allotted among the subscribers at a drawing.

No member of the lodge has taken more than one note and it was freely predicted by many members today that if more than \$15,000 is required in order to make the addition full two stories, many members will take more than one note.

The lodge has had under consideration the construction of an addition, but the plans were delayed during the war on account of the high cost of material. The improvement was almost started last summer, but it was deemed wisest to wait another year until prices became normal.

The original idea was to build the structure out of cement, but a majority at the meeting last night

## CONVINCED GERMANY CAN PAY INDEMNITIES

Allies Dispatch New Note to Berlin,  
Warning Them What Refusal to  
Meet Debt Will Mean

### 20 BILLION MARKS DUE MAY 1

(By United Press)  
Berlin, Mar. 25.—Reports here today stated the allies contemplate seizure of Frankfurt as a further reparation penalty against Germany.

Paris, Mar. 25.—The allies are convinced Germany can pay the indemnities bill but no intentions of doing so have been noticed, the allied reparation commission declared today in a note to the Berlin government. The note declared that Germany must pay twenty billion gold marks to the allies by May 1 which would amount to about \$4,500,000,000.

Germany was warned that refusal to pay the one billion marks demanded yesterday would be a failure to meet with the terms of the Versailles treaty.

Berlin's failure to pay the reparation demands has been referred to the allies, the note says. Indefinite occupation and property annexation will be considered by the allied premiers as an additional German penalty. The reparation committee has assented to further negotiations.

## SLUMP HITS THE PRODUCE MARKET

With Price of Eggs Lowest in Years,  
Local Dealers Report Biggest De-  
mand in Their Memory.

### WARM WEATHER RESPONSIBLE

Inability of Storage Houses to Get  
Bank Credit Also Blamed For  
Not Keeping Prices up

Country produce, including butter and eggs, has taken a decided slump on the market within the last few days, and a new low mark for several years has been reached. Eggs today were selling in local stores from 18 cents a dozen up, with the purchase price from farmers ranging around 15 and 16 cents.

Butter was being purchased today from farmers at 18 to 40 cents a pound in most stores, while the produce dealers were paying 12 cents a pound. The retail price ranged around 40 to 45 cents. The price paid farmers depended on the quality of the butter.

As far as can be remembered, eggs today were selling for the first time since 1913 below 30 cents a dozen. The highest mark reached here several weeks ago was 87 cents a dozen, and eggs were scarce at that price.

Unusually mild weather in the last six weeks is given by jobbers as the chief reason for the fall in prices. The early egg laying season is now at its height and is at least six weeks ahead of the usual time. Inability to obtain financial backing for speculation in eggs is also given as a reason for the present low price. Speculators who have heretofore stored large quantities of eggs in anticipation of keeping up the price have been unable to obtain bank credit with which to purchase eggs this year.

Local grocers reported that they never remembered a period when they had sold so many eggs as they have in the last few weeks. People who bought only a half dozen eggs when the price was high, now buy three, four or five dozen at a time and housewives are using eggs in many different ways in their menus.

It was anticipated by dealers that the demand will continue as long as the supply holds out and the price remains low. It was pointed out that the drop in the price of eggs came at a very opportune time because many regard the celebration of Easter as incomplete unless they have a plentiful supply of eggs.

The price of butter and eggs harks back to the olden days when

## VIRGIL DECKER GOES BEFORE GRAND JURY

Youth's Latest Statement Accepts  
Full Responsibility for The  
Killing of Leroy Lovett

### FIRST DEGREE CHARGE ASKED

(By United Press)  
Warsaw, Ind., Mar. 25.—Virgil Decker, 18-year-old country boy, the confessed murderer of Leroy Lovett, his chum, went before the special grand jury today to tell the story.

H. W. Graham and A. W. Stockey, prosecuting attorneys, were prepared to ask the jury for indictment charging first degree murder. If this charge was returned, it would mean the death penalty.

Robert Buhler, attorney representing Virgil, stated the boy will make a clean confession of it all. Decker's latest statement made yesterday followed the lines of his first confession, taking full responsibility for the crime. The boy said he killed Lovett following a fight in the cabin. It is understood that the authorities investigating the case will ask the grand jury to follow the lead they have pursued that Lovett was murdered to collect \$24,000 life insurance carried by Decker, in view of the resemblance between Decker and his pal.

## WEEKS CONSULTS HUGHES

Takes Up Question of Bergdoll's  
Return to United States

(By United Press)  
Washington, Mar. 25.—Secretary of War Weeks today went to Secretary of State Hughes with papers concerning the case of Grover Cleveland Bergdoll, with a request that Weeks be advised what further action to take. It was suggested that the state department consider the situation from an international standpoint and tell him what should be done to secure the return of Bergdoll and the release of two Americans who recently attempted to capture the millionaire draft dodger.

## CHURCH HEAD DIES AT THE AGE OF 86

James Cardinal Gibbons, Venerable  
Catholic Prelate, Expires at  
Baltimore at 11:35 Today.

### DIGNITARIES AT BEDSIDE

Cardinal Born in Baltimore in 1834  
and Made Head of Catholic  
Church in America in 1886.

Baltimore, Md., Mar. 24.—James Cardinal Gibbons died here today at the age of 86 years. The aged prelate's illness had confined him to the bed the greater part of the winter. After fighting off one attack, the cardinal was so weak that he could not withstand a second attack. He died at 11:35 a. m.

J. Monsignor John Bonzano, apostle director to the United States; Bishop O'Corrigan, vicar general of the Baltimore arch-diocese, and a large number of other clergymen, were at the home of the cardinal when he passed away.

The cardinal has been head of the Catholic church in America since June 7, 1886, when he was elevated at the death of Cardinal McCloskey in New York.

James Cardinal Gibbons was born in Baltimore July 23, 1834. His parents, Thomas and Mary Gibbons, had come to America from Ireland in 1829. They returned to their native land when the future cardinal was two years old.

He got his early education in Ireland and then, upon his father's death, returned with his mother to America, making his home in New Orleans where, when 17, he clerked in a grocery store.

He entered St. Charles College at Ellicott City, Md., and graduated in 1857. He then entered St. Mary's Seminary in Baltimore and was ordained a priest of Archbishop Patrick Kendrick on June 6, 1861.

Father Gibbons then became assistant at St. Patrick's Church in Baltimore, was shortly placed in charge of St. Bridget's Church in Canton, a Baltimore suburb.

Archbishop Spaulding then took him to the cathedral as secretary and made him chancellor. On Aug. 10, 1868, Father Gibbons was consecrated a bishop in the Baltimore cathedral and was assigned to North Carolina by Pope Pius IX.

While in charge of this diocese, Bishop Gibbons wrote "The Faith of Our Fathers" his best known book. In 1872 he was promoted to the see of Richmond, Va., and on October 3, 1877, was made Archbishop of Baltimore, gaining with it the title of primate of the United States, it being the oldest see of the Catholic church in American. Archbishop Gibbons presided over the third plenary council of Baltimore in 1884 and in 1886 he was created Cardinal by Pope Leo XIII.

### PROCTOR WANTS MONEY BACK

Chicago, Ill., Mar. 25.—William Cooper Proctor brought suit today to recover \$110,000 he advanced for Major General Leonard Wood for his futile fight for the presidency. The suit was filed against A. A. Tague, of Chicago, who was treasurer of the Wood campaign committee.

### CONDITION IMPROVES

Mrs. J. F. Ryan of Orange who has been threatened with blood poisoning, is improving and her recovery is expected.

## IS "HOME TALENT" EVEN TO PICTURE

Annual Entertainment and Banquet  
by Rushville Commandry, Knights  
Templar Wednesday Night

### JESS PUGH ON THE PROGRAM

First Picture Produced by Tom J.  
Geraghty at Long Island Studio  
Shown—Other Local Features

The annual entertainment and banquet of the Rushville commandry, No. 49, Knights Templar, for their wives and lady friends, at the Masonic Temple Wednesday night, was purely a "home talent" affair in every sense of the word.

The first event of the evening, and regarded by many as the principal one, was a course turkey banquet prepared by the McCoy Sisters. During the banquet there were numbers by Homer Cole's orchestra and whistling solos by Paul Spivey.

After the banquet, the guests retired to the Princess theater, which had been especially reserved for the commandry, where a picture produced at the Long Island studio of the Lasky-Famous Players company, of which Tom J. Geraghty is supervising director, was shown, and Jess Pugh gave a program of about twenty minutes duration. Paul Spivey also whistled again and there were several selections by the orchestra. To top it off, some local "mediums" answered "questions" from the audience.

The entertainment following the banquet was successfully kept a secret, and only members of the committee in charge of the annual affair—Hugh E. Mauzy, Walter Hubbard and B. O. Simpson, were aware of what was in store for the Knights and their guests.

Following the banquet, which was served in good style and was highly praised by all of the 154 persons present, Mr. Mauzy, who was chairman of the committees, announced to the guests that they would retire to the Princess theater, where arrangements had been made for a program. He pointed out that the committee had endeavored to make it a "home talent" program, even to the picture. The motion picture was entitled "The Gilded Lady," in which Mae Murray had the leading part, and was the first film produced under Mr. Geraghty's direction after he went to the Lasky-Famous Players studio.

The picture has been released only a short time and it was through the efforts of Walter Easley, owner of the Princess theater, that ar-

## WORK IS STARTED REPAIRING STREETS

City Contracts For Gravel Which is  
Being Put on Before Oil Is  
Applied.

### HIGH PRICES DELAYED WORK

Work has been started on repairing the streets of Rushville, which have suffered several years because of the lack of material, and the city now has made arrangements whereby gravel is being hauled and placed on the streets, at a reasonable price.

Members of the city council have been aware of the fact that the condition of the city streets for some time have been most deplorable, but the high price wanted for gravel has kept all repair work down to a minimum.

At a recent meeting of the city council bids were received on gravel, and about the best price available was \$1.80 a yard laid down in the local yards, and before applied to the streets, the cost would reach \$2.75 a yard. Under a contract with R. J. Hall, gravel from his pit north of Rushville is being furnished laid down on the streets, at about \$1.00 less than all other bids.

Several loads will be hauled each day until the different streets are put in good condition and by the time that oil is applied the streets should be in first class condition.

Brownatone Ends

Gray, Streaky Hair

Ladies, in society, no more tolerate gray, streaky hair than they do unbecoming gowns. Neither can the business girl of person in any walk of life who would keep up-to-date. The proven, tested and absolutely harmless way to tint gray, faded, streaked or bleached hair is

with "Brownatone." This one bottle, easy to apply tint gives distinct shades from lightest golden to the deepest brown or black. "Brownatone" tints instantly and will make you look ten years younger over night. No muss, dirty pastes to bother with—no waiting for results. All druggists recommend "Brownatone" on a money back guarantee—50c and \$1.50. Two colors—shading from "Golden to Medium Brown" and "Dark Brown to Black."

**Special Free Trial Offer.** For a free trial bottle with easy, complete directions, send 11 cents to pay postage, packing and wire tax to The Kenton Pharmacal Co., 601 Coppin Bldg., Covington, Ky.

Ben Franklin Said:

"The eye of a man should do more work than both his hands"—and he was right.

If your eyesight becomes defective, though you can not possibly do your work properly, and down will go the figures on your pay envelope.

Our accurately fitted glasses keep the "figures" up—put more money in your pocketbook, and let you see the bright side of life.

In other words, glasses fitted here improve your chances for success in every line of endeavor.

If your eyes bother you at all call and see us without loss of time.

**JESS M. POE**  
OPTOMETRIST

Motor Care

The constant pound and noises in motors cause excessive wear of their various parts and although a breakdown may not occur immediately, the final result will be sixty per cent more costly than if the repairs were made at the first indication of trouble.

The same is true of the rear system. A growling, humming sound that always precedes a breakdown, should warn the auto owner that he will eventually break down, necessitating delay and an expensive tow in by a garage man.

Hence it behooves every auto owner to go to his particular garage man and let him diagnose those noises.

If you want to save money on motor or rear system overhauling, I would advise you to bring your car to me as I can save you money, give you genuine Ford parts, get you in running in quick order, and guarantee satisfaction both as to price and workmanship.

Telephone 1330 or bring your car to

TO IMPROVE MAIL SERVICE

Will Hays Seeks Cooperation in "Mail-Every-Hour" Campaign

Washington, Mar. 24.—Members of Congress have been asked by Postmaster-General Will H. Hays to cooperate in the "mail-every-hour" campaign which he proposes to inaugurate over the country in an effort to relieve congestion in big city postoffices as a result of the bulk of the mail of business firms being held until the end of the work day and then placed in mail boxes. Mr. Hays already has taken this subject up with heads of the various Federal departments in Washington, holding that the first step in the campaign "ought to begin at home."

The postmaster-general, in a formal statement, declared it was his intention to put the entire postal service upon a purely business basis "so sound and so serviceable that no political party ever again will dare attempt to ignore or to evade it."

TO BE RETURNED HOME

PICKS 3 MEMBERS OF UTILITIES BODY

Gov. McCray Appoints George M. Barnard, John McCordle and M. Douglas on Commission

FIRST TWO ARE REPUBLICANS

Barnard, Succeeds P. Haynes Who Resigned, McCordle Reappointed and Douglas Follows Johnson

Indianapolis, Ind., Mar. 24.—Gov. McCray has made his first announcement concerning appointments to important state positions, naming three members of the public service commission. The Governor named two new members of the commission, one to fill a vacancy and one to succeed a retiring member, and reappointed one of the present members of the utilities body. The appointments are regarded as the most important which were before the Governor.

George M. Barnard, Republican, of Newcastle, was appointed to succeed Paul P. Haynes, resigned; John McCordle, Republican, of Indianapolis, was reappointed; and State Senator Maurice Douglas, Democrat of Flatrock, was appointed to succeed Fred Bates Johnson of Indianapolis. The Barnard appointment is for the unexpired term of Mr. Haynes from April 1 to May 1, 1924. The reappointment of Mr. McCordle is for a four-year term from May 1, and Senator Douglas will serve four years from May 1.

The Governor also appointed Fred C. Klein, a South Bend attorney, as judge of the new St. Joseph county Superior court No. 2. The court was created by an act of the recent Legislature.

Mr. Barnard, who is an ex-mayor of Newcastle, is at present corporation attorney for the city. He has appeared before the commission several times as a representative of the public in municipal cases and is highly regarded at the Statehouse. Mr. Haynes, who resigned recently, will engage in special practice of the law in Indianapolis after April 1.

Mr. McCordle, who is vice chairman of the commission, was first appointed by ex-Governor Goodrich four years ago. He has served on the commission during the important war and readjustment periods when many complex problems were presented to the commissioners for solution.

State Senator Douglas represented Shelby and Bartholomew counties in the recent General Assembly. He was elected state senator in 1916. He served several terms as a member of the House prior to his election as senator. Mr. Douglas is secretary of the Indiana Federation of Farmers' Associations. Mr. Johnson, who is to be succeeded by Senator Douglas, let it be known some time ago that he was not an applicant for reappointment. He is expected to resume the practice of law in Indianapolis.

The public service commission is regarded as one of the most important of the state departments. There are five members of the commission. Members of the commission receive a salary of \$6,000 a year. E. I. Lewis Republican, of Indianapolis, is chairman, and Glenn VanAuken, Democrat, is the other member of the commission.

Governor McCray, it is known, gave the appointments of members of the commission much consideration. Although importuned in behalf of many candidates, the Governor selected the men he believed best qualified to serve on the commission. Many favorable comments concerning the three men named by the Governor were heard today after the appointments.

MEET AT RICHMOND IN MAY

Date For Sixth District Federation of Clubs Convention Set

Richmond, Ind., March 24.—The annual convention of the Federation of Women's Clubs of the Sixth district will be held at Richmond May 11 and 12, it was announced here today. Seventy-nine clubs are affiliated with the organization. About 150 delegates will attend the meeting. One of the principal addresses will be made by Stuart Walker of the Stuart Walker players of Indianapolis. A banquet will be held on the evening of May 11. Complete arrangements for the entertainment of delegates have not been made. This is the first time in seven years that Richmond has entertained the federation.

England is trying Benzol as a cheap substitute for gasoline in motoring.

JAMES CARR, 93, EXPIRES

Father of Mrs. Albert Ayres Dies at The Grand Hotel

James Carr, age 93 years, died last night about 9:30 o'clock at the home of his daughter, Mrs. Albert Ayres at the Grand Hotel in East First street. The cause of death is thought to be brought about by old age. The deceased was born in Lexington, Ky., but had lived the greater part of his life in and around Clarksburg. His wife died three years ago at the age of 83 years. He was a life-long and devout member of the Clarksburg Christian church.

The survivors are three daughters, Mrs. Ayres of this city, Mrs. Anna Noah, of Connersville and Mrs. Clarence Linville of Clarksburg. The funeral services will be conducted at two o'clock Friday afternoon at the old home place near Kingston. Friends in this city may call between eleven and one o'clock tomorrow to view the remains.

KIWANIANS GET CHARTER

Hartford City, Ind., Mar. 24.—Two hundred visiting Kiwanis Club members from Muncie, Portland, Huntington, Newcastle, Winchester, and Kokomo were here last night attending the dinner and meeting at which the Hartford City Club received its charter. Dr. McCulloch of Marion, the district governor, was one of the speakers. E. E. Cox, Hartford City, postmaster, is president of the local club, which has a membership of sixty.

Personal Points

—Miss Helen Frazee, who is a student in Western College for Women, at Oxford, Ohio, will arrive home Friday to spend the Easter vacation with her parents, Mr. and Mrs. Charles A. Frazee.

—Mr. and Mrs. E. L. Kennedy, Mr. and Mrs. Carl Kennedy and Mrs. Herman Tompkins were called to Portland today on account of the serious illness of Alfred Freeman, who formerly lived here.

—Mrs. Will McKee and Mrs. W. R. Phillips of Orange have returned from Foster, Ohio, where they have been visiting their mother, Mrs. Hoy. The latter returned home with them where she will make her future residence with Mrs. Phillips.

THIS WILL ASTONISH RUSHVILLE PEOPLE

The quick action of simple witch-azel, camphor, hydrastis, etc., as used in Lavoptik eye wash, will surprise Rushville people. One girl with weak, strained eyes was helped by a single application. Her mother could hardly sew or read because of eye pains. In one week she too is benefited. We guarantee a small bottle of Lavoptik to help ANY eye weak, strained or inflamed eyes. Aluminum eye cup FREE. F. Wolcott, Druggist.

Films On Ants Is Pupils' Demand In Mock Studio Order

Chicago, Ill., March 24.—“If you could give orders to a moving picture studio for a reel on nature study, what subject would you have them film?”

The Society for Visual Education recently put this interesting question to 150 boys and girls in the seventh and eighth grades, with the idea of getting at their actual preferences in the way of school films to supplement textbook work in nature study. In answering, some pupils indicated only a single subject, while others draw up fairly elaborate lists of topics which they yearned to see.

Ants scored highest, with 84 calls to its credit. Next came fish, with 45 points, snakes with 31, and wild animals with 30. Birds and chickens, “all the way up”—the youngsters’ characteristic way of insisting that the picture begin with the very egg itself—ranked next in popularity, securing 26 and 20 votes respectively. Interested in watching the life of der as to number of requests, came subjects like flowers, ducks, rabbits, mice, butterflies, bats, submarine vegetation, dogs, bees, horses, worms, pigeons, turtles, cats, tigers, elephants, frogs, lions, spiders, trees, bugs, squirrels, flies, bears, deer and apes with votes ranging all the way from 14 to 2.

“The overwhelming demand for a reel on ants is readily explained by child psychology”, said Barnett W. Harris, a member of the Society’s committee on production. “To the average boy and girl there is far more appeal in a subject he already knows something about than in something which is divorced from his own experience. There was a formicary in the science room, and these children had all become deeply interested in watching the life of the ant colony. Their lessons and their own observation and research had already taught them many wonderful things about ant life, yet they were keen to learn whatever else the screen might have it in its power to bring them”.

In the case of most of the other subjects receiving a large vote such as snakes, birds and fish, Mr. Harris stated that the instructor was able to trace the interest either direct to current classroom studies or to articles recently appearing in Sunday-school papers, juvenile magazines or the young people’s page of the daily newspapers.

FARM CONDITIONS REGARDED AS GOOD

Ideal Weather of Last Weeks Makes Spring Work Far in Advance of The Season

PLOWING IS WELL UNDER WAY

Farmers Devote Part of Time to Testing Seed Corn and in Spare Moments do Some Ditching

The agricultural outlook in this county, broadly viewed seems very favorable indeed, according to the prevailing opinion among the farmers. The weather of the past six weeks has been remarkably kind to the growing wheat. Fields that looked discouraging two months ago have changed in the past ten days and the change is continuing. A few reports speak of some signs of the Hessian fly, that stealthy insect which caused so much damage to the Mississippi valley crop and parts of the northern wheat belt last year, but the indications are that the farmers will not be troubled seriously in this regard.

The plowing for corn is in progress full kelter in every part of the county and all reports are to the effect that the ground turns well and that so far as can be judged at this time it will be easily and early prepared for satisfactory planting.

The testing of seed corn is taking a share of the farmer’s time just now. The intelligent corn growers as a class are fully awake to the fact that each ear of corn saved for seed needs be tested exhaustively. One barren ear, planted, would mean the loss of many a bushel.

Ditching, too, is a task now under way to rather surprising extent in Rush county. Drainage has always been a problem for the knowing farmer, and in recent years it has been demonstrated that careful tiling has indirect or supplemental advantages undreamed of a few decades ago.

In the intervals between plowing, seed corn testing, tile ditching and calculating means to meet the next installment of income tax, the progressive farmer may profitably spray his fruit trees. The San Jose scale has taken a grip on several Rush county orchards and if something be not done to destroy the ruinous mites, the trees will die and the blight will spread. A solution of lime-sulphur is probably as good as any for this particular pest.

Amusements

“The Prince Chap” Princess

Edward Peple’s well known play, “The Prince Chap,” in which Cyril Scott appeared so successfully for several years, has been transformed by William De Mille into a screen comedy of more than ordinary appeal. It will be shown today and Friday at the Princess theatre.

Besides telling an entertaining story, the picture is crowded with well conceived scenes in the humble artists’ colony in the Soho section of London. The plot concerns William Peyton, a sculptor, who goes to Soho to win fame and fortune, leaving Alice, his fiancée, behind him. At the death of a poor model, Peyton and his artist-chums become the guardians of Claudia, her little child. Alice, hearing ugly stories of Claudia’s origin, comes to the studio in Peyton’s absence. Through innocent words of the child’s, a misunderstanding arises, and Peyton and Alice become estranged. She marries another man. In later years, Claudia, grown to womanhood, comes to love Peyton.

“The Little Grey Mouse”, Mystic

“The Little Grey Mouse”, a William Fox production and the first starring vehicle of Louise Lovely, comes to the Mystic Theatre tomorrow. This story is from the pen of Barbara Le Marr Deely.

The story in the main deals with a beautiful and talented woman, who because of her retiring and conservative life, is given the title of “the little grey mouse” by a worldly woman who has ensnared her husband—a worthless chap who accepts the credit for her literary genius as a matter of course and finally divorces her on false but circumstantial evidence. Having had her freedom thrust upon her, she goes west where she gains both fame and fortune with her pen, and in the end gains also the love of a worthy man.

INJURIES RESULT FATALLY

Mishawaka, Ind., Mar. 24—Richard Weston 7 years old, died in a hospital here Tuesday from injuries received Saturday, when he was struck by an automobile at Bremen Ind. The lad had started across the street, saw a motor car coming toward him and darted back, only to be struck down by another car going at a speed of only ten miles an hour.

“HOME TALENT” EVEN TO PICTURE

Continued from Page One

arrangements were made for a special showing here in advance of the regular release for this city. The picture will be shown to the public at the Princess later. It has not been shown in the state yet.

The Rushville Commandry was able to reserve the Princess for a special show due to an agreement between the Masonic Temple association and Mr. Easley, made when he rented the room in the Masonic Temple, that the Masons should have the privilege of using the theater once a year.

Jess Pugh proved very popular with the audience in a variety of selections prepared especially for the occasion and Paul Spivey was encouraged for his whistling solos.

A part of this week’s Pathe News reel showed President Warren G. Harding being given the Knights Templar degree, which proved very appropriate for the program.

With Walter Hubbard and Hugh Mauzy “back of the scenes” operating a magnavox and posing as “mediums”, the Knights found opportunity, by asking questions, to have some fun at the expense of the guests. The “mediums” had an appropriate answer ready for every query put to them.

Hydroelectric plants completed or under construction in France will give that country 1,600,000 horsepower obtained from its waterfalls.

This is the Stove Polish YOU Should Use

IT’S different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off. It shines four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don’t find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—use quality.

Black Silk Stove Polish Works

Stearns, Illinois

Use Black Silk Air-Drying Enamel on grates, registers, stove-pipes—Prevents rusting. See Black Silk Metal Polish for silver, nickel or brass. It has no equal for these materials.

Look Behind The Retailer

Wonder how much of the freight  
congestion, and the growing cost of  
freight and handling is chargeable  
to the evolution in shipping customs  
—shipping containers, particularly?  
Ever watch a car of barrels un-  
loaded?

One man, with the minimum of  
effort, can unload a car of 300  
pound barrels in one-tenth the time

two men and a truck will unload a  
car of cases of the same goods. And  
there is practically no damage to  
barreled goods in transit.

Claims for damaged freight re-  
quire a large department in the  
railroad's operation, and a propor-  
tionate one in the office of each  
shipper.

The cost of these departments,  
together with the losses, is charged  
back to the consumer by both the  
railroad and the manufacturer.

The barrel is two thousand five  
hundred years old as a container,  
and like many other things which  
have stood the test of time, improves  
with age. It meets present shipping  
conditions better than it did two  
thousand years ago.

Shipping in paper, glass and tin  
small units in cases costs from 50  
to 100 percent more in original  
packing adds unnecessary cost at  
every step, to the consumer, who  
pays.

Add to these penalties the enor-  
mous waste of the fancy containers,  
and it is not difficult to see why the  
cost of living has mounted so high,  
ignoring such small details as sup-  
ply and demand.

Punishment to Fit

Some people advocate jail senten-  
ces for those who conspire against  
the government. But it is doubtful  
if that is the best policy, or even  
one that will produce satisfactory  
results.

Drastic action is necessary in  
such cases, but it should be action  
that will relieve us of the presence  
of the plotter instead of merely de-  
priving him temporarily of his lib-  
erty.

In nearly every case these plot-  
ters come to us uninvited from  
some foreign shore. Since they do  
not approve of the manner in which  
we manage our own affairs, the lo-  
gical course would be to send them  
back to the countries from whence  
they came. They may find conditions

more to their liking in the hotheds  
from whence they fled.

Foreigners who are willing to be-  
come productive assets in this  
country are welcome.

Dangerous liabilities are not want-  
ed.

When Peace Comes?

Is universal peace to come out of  
the great war? It is not. Even as a  
dream it is fading away.

Governmental greed in Europe is  
the rock upon which it was wrecked.  
International hatred and distrust  
will keep it submerged.

On the surface diplomacy main-  
tains a fiction of unity, but under-  
neath, the fires of imperialistic pas-  
sion are raging unchecked.

Dreams come and dreams go, but  
peace for this world will come when  
we are all gods, and not men.

Don't cut down a tree, no matter  
how small it may be, unless it is ab-  
solutely necessary. American fore-  
sts are rapidly disappearing and it  
will require many years to produce  
others in their stead. The excessive  
cost of lumber is due partly to the  
scarcity of trees and to the increas-  
ing difficulty of marketing those  
that remain. Foreign governments  
cultivate their forests as carefully  
as we do our crops, but we in Ameri-  
ca have yet to learn the wisdom of  
this.

Candidly, we are tired of reading  
about wars, murders, holdups, di-  
vores, scandals, and other mild  
forms of amusement. Nothing with a  
thrill ever happens any more.

Congress, says an exchange, will  
soon be deprived of its last excuse  
for doing nothing. And still, there  
are times when nothing is preferable  
to something.

Now that we are through cussing  
winter we may soon indulge in our  
equally favorite pastime of tearing  
a few at summer.

In this world there are, about, a  
billion and a half of people. If you  
don't believe it go out and count 'em.

Practically every man has a sec-  
ret craving for wealth. A few are  
willing to earn it.

The world owes you only that  
which you go and collect. It never  
pays in advance.

Summer furs will hardly be popu-  
lar this season. They have hit the  
toboggan in price.

A Council of Nine Spots

(Chicago Tribune)

The council of the league of na-  
tions is a bunch of nine spots. It is  
more paltry than deuces because it  
makes more of a show and counts  
for little more.

The American state department  
has been trying to get some satis-  
faction in its demand that Yap be  
internationalized and not handed  
over to Japan to control its cables  
and means of communication across  
the Pacific. The United States was  
plainly double crossed by the peace  
conference, and in a fashion which  
makes us doubt that there was any  
moral scruple or suggestion of con-  
science in that body. Morally it was  
of lower tone than a gathering of  
card sharps.

The only thing Mr. Wilson asked  
for the United States was the in-  
ternationalizing of this table sta-  
tion, and when he thought that had  
been agreed to, his conferees duped  
him and handed the island to Japan.  
It was the worst breach of faith a  
group of diplomats could achieve.

Now the United States demands  
satisfaction, and Mr. Colby, so en-  
thusiastic a believer in Mr. Wilson's  
league of nations, is being kicked  
from door step to door step, and  
does not know where to lay his com-  
plaint or lodge his demand. He tried  
the council of the league of nations,  
thinking that this group of nine  
spots had the authority it is sup-  
posed to have in the conduct of the  
world affairs.

The league council kicks him out,  
and tells him to go to the supreme  
council of the allies—back to the  
sharpening outfit which did the double  
crossing in the first place. The  
nine spots say that they have noth-  
ing to do with cutting up the swag  
of the world. They merely hold it for  
the nations to which it was given.  
That was our conception of the league  
of nations in the beginning, and  
the opinion has valid confirmation  
from the league itself.

Mr. Colby is reminded that the  
United States is hardly in position  
to have the freest intercourse with  
other nations regarding its wrongs  
because it has not given itself the  
felicitous advantage of membership  
in the league—this, notwithstanding  
the fact that Mr. Colby is told that  
he has brought his protest to the  
wrong room.

Therefore it is back to the origi-  
nal architects of the fraud, and  
there is reason to hope that when  
Mr. Hughes lands it back at its  
source it will return with some un-  
pleasant intimations. The United  
States is regarded as a confirmed  
adherent to the doctrine that it is  
more blessed to give than to receive.  
We can change that to the doctrine  
that we'll give a square deal if we  
get one—and if we do not get one,  
we'll know the reason why.

Sap and Salt

By BERT MOSES.

The best education is the kind  
that makes you think.

Sometimes the finest revenge you  
can get it through forgiveness.

Poverty makes some men steal,  
while in other cases it sets them to  
work.

Hez Heck says: "Patience that  
covers too much ground tapers off  
into laziness."

Some men are so busy expecting  
things to happen that they don't see  
what's going on now.

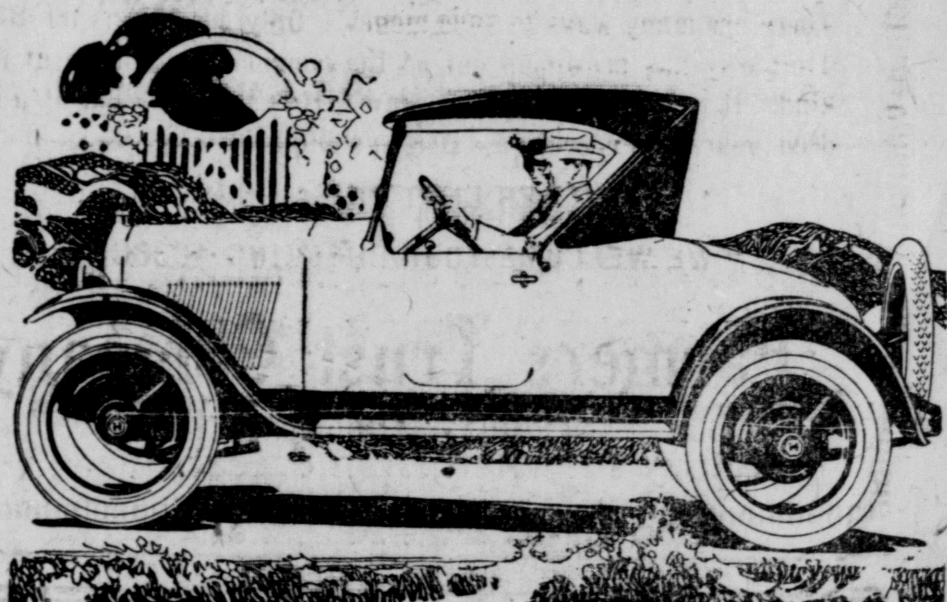

Almost any of us feel it is all  
right to pass a lead nickel, but most  
of us hesitate about trying to pass  
a bad ten-dollar bill.

## AMERICAN NAVY IS CARING FOR REFUGEES

Is Keeping Track of Sick Relatives Left Behind in Constantinople by Crimean Refugees.

### HAS ESTABLISHED HOSPITAL

Constantinople, Mar. 24.—(United Press)—The American Navy is acting as guardian to the Crimean refugees in the hospitals of this city, whose families have been separated from them. The absolute necessity of evacuating refugees from Constantinople has resulted in hundreds departing from the city and leaving kinsfolk behind, ill in the hospitals. The American Navy has undertaken to keep track of all of the sick people thus separated from their families.

The number of sick is increasing. The Russian summer embassy at Bayk-Dere has been turned into a refugee hospital, equipped by the American Red Cross. Such is the inadequacy of facilities for caring for the sick, that in all hospitals available for refugees, more than half of the patients are sleeping on the floor.

Mortgage exemptions, fifty cents.

## INDIANAPOLIS SCHOOLS WEAK

Explanation of Why Capital's High School Teams Are Not Champions is Attempted

### SMALL TOWN ADVANTAGES

Players Know Each Other in Grades and Are Smooth Working Machine From Beginning

(By United Press)

Indianapolis, Ind., Mar. 24.—When last week thousands of basketball fans gathered at the coliseum in the State Fair grounds, sixteen of the best high school teams from all parts of the state fought for the championship. Not one of these sixteen teams were from an Indianapolis high school. The thousands of followers of the great indoor game asked what was the matter with the big city high schools.

It has been suggested that the boys from the small towns are better physically than the big city athletes because they keep better hours and as the old expression goes, are "cornfed." This may or may not be true. The fact remains that Indianapolis teams did not even get past the regional tournaments in basketball, while in football two outstate teams at least, were better than any of the Indianapolis teams. Wabash and Clinton high schools outranked Indianapolis in football. To be sure, Manual Training high school won the state track meet last year, but Manual had a hard time winning the meet and it was due more to the clever judgment of Coach "Shorty" Morrison than it was to his material.

That is just it—material. Why do the athletes from the three Indianapolis schools equal the best from other Indiana high schools after getting in college.

Championship teams are not built in one year, or even two. In the small cities and towns the boys know each other. They play in grade school teams together, they play together on the town lots and when they enter high school, they are already a part of a basketball five that works like a machine or a football eleven that is ready to develop almost perfect team play. This is not true in the big cities. The Freshmen enter high school in the big cities without having seen any of the other boys on the football or basketball squad.

The time to start playing sport games is when a boy is 9 or 10 years old, and still in grade school. He learns to play base ball then on the vacant lot, and to pass the basketball and to catch and kick a football.

## NATIONAL HONORS AT STAKE

I. U. Wrestling Team Will Meet Penn State at Bloomington

(By United Press)

Bloomington, Ind., Mar. 24.—National collegiate wrestling honors will be at stake when the Indiana University wrestling team, Western Intercollegiate conference champions, meets Penn state, eastern title holders, at Indiana University on March 30. Indiana won the western title from eleven middlewestern universities. Penn State has been the eastern champion for the past five years, defeating teams from Harvard, Cornell, Columbia, University of Pennsylvania, the Navy and other eastern universities. E. Wesley Mumby of Mishawaka, the western champion in 175 pounds class, is one of the stars in the Indiana team.

### ATHELETE IS BLIND

Colorado Springs, Colo., Mar. 24.—Permanent and total blindness has never discouraged Frank Mobley, a senior at Colorado College here and who has just been given one of the highest scholastic honors, election to Phi Beta Kappa. Mobley plays the piano and violin, attends all athletic contests, is a first class wrestler and is one of the most popular men in school. After graduation, Mobley plans to take up the practice of law.

## TO PROPOGATE FISH BY AN INCUBATOR

Artificial Means Will be Used to Replenish Streams With Pike Perch Which Supply is Scarce

### WILL HATCH THE FISH EGGS

Indianapolis, Ind. Mar. 24.—Unable to obtain pike perch eggs from the U. S. Bureau of Fisheries because of a shortage in the supply procured from Lake Erie account of the cool season, strenuous efforts will be made by the division of fish and game of the state conservation department to obtain at least 20-million eggs from Michigan authorities for artificial propagation, George N. Mannfeld, division chief announced today. According to Mannfeld, Michigan officials promise to send any surplus to Indiana.

The Indiana fish and game division plans to hatch a few million pike perch eggs at the Riverside hatchery where the Marion County Fish & Game Association has apparatus. If the Michigan consignment is received the bulk of eggs will be hatched at Tri-Lakes hatchery which contains a battery of jars and apparatus for artificial propagation.

Indiana officials have endeavored for several seasons to procure pike perch eggs from the government hatcheries but to no avail, preference being given applications from states contiguous to Lake Erie. Commercial fish dealers in Michigan and Ohio have always opposed the eggs going into other than the lake states.

Japanese capital is being invested in the Philippines in cultivation of rice.

## Lay Them Right Over the Old Shingles

WHEN your shingle roof must be replaced you need no longer suffer the houseful of dust and dirt, litter, annoyance and expense of ripping off the old shingles. Leave them where they are and lay Johns-Manville Asbestos Shingles right on top of them. Then you'll have a roof that is fireproof and everlasting; you'll get the benefit of the splendid roof insulation afforded by the old shingles and, most important of all, you will have re-roofed for the last time.

### RE-ROOF FOR THE LAST TIME WITH JOHNS-MANVILLE ASBESTOS SHINGLES

Lay Johns-Manville Asbestos Shingles right over the old wooden shingles and you eliminate roofing troubles and expense for all time because Johns-Manville Asbestos Shingles will last as long as your building stands. They're all mineral—nothing in them to rot or burn; they will not warp, curl or split; they never need paint; they're easy to lay and they are most attractive in appearance.

Does your roof need replacement? If so, it will pay you to get full information about this method of re-roofing with Johns-Manville Asbestos Shingles. See us at once. We can do the work for you quickly, easily and economically.

Write, call or telephone today for full particulars, estimate, etc.

A card party will be given at the K. of C. hall next Tuesday night by the Country Ladies Aid Society of the Catholic church. The public is invited to attend this party.

The Tarry-A-While club will be entertained tomorrow evening at the home of Miss Elsie Bohannon in North Morgan street. All the members are cordially invited to attend.

Mr. and Mrs. Frank George will be host and hostess for the members of the R. C. S. club Friday evening at their home in North Perkins street. A large attendance is desired.

The Ladies Aid Society of the First Baptist church met yesterday afternoon at the home of Mrs. Robert Stewart in West Fifth street. The afternoon was spent in sewing and with a social good time.

Mrs. Louis Mauzy delightfully entertained the members of the Thursday Afternoon Bridge club yesterday afternoon at her home in North Perkins street. Delicious refreshments were served at the close of the card games.

The W. R. C. met yesterday afternoon in the Grand Army room of the court house and enjoyed a very delightful meeting. The organization voted on three candidates and received two applications during the business meetings. Plans were also arranged to attend the meeting of the W. R. C. Penny Social to be held at the home of Mrs. Mary Poston living south of the city, the first Tuesday in April. Automobiles will be provided to take the members to the meeting.

Mrs. Wilbur Chance entertained with a delicious six o'clock dinner party last evening at her home in Falmouth, honoring the 40th birthday anniversary of her husband. A large birthday cake adorned with forty candles centered the table and covers were laid for Mr. and Mrs. William Knecht, Jr., Mr. and Mrs. John Knecht and children, and John Mazingo, all of this city; Mr. and Mrs. James Cooney and sons James and Francis, Mrs. Kate Chance and Roscoe Chance of Falmouth.

## Ah! Epsom Salt like Lemonade

Sold in Handy Packages called  
"Epsomade Salts."

To get all the splendid physio-action of a dose of epsom salts without the awful taste and nausea ask for "Epsomade Salts" which is real epsom salts combined with fruit derivatives, giving it the taste of sparkling lemonade. Try it when bilious, headachy or constipated. Costs but a few cents.

Warning! Don't just ask for "tasteless epsom salts" or you may get a sofa imitation. Always ask for "Epsomade Salts" and look for the name, American Epsom Association.

Anthem, "Hallelujah Christ is Risen", Classes 3 and 4.

Recitation and song, Class No. 5  
Senior Male quartet, "Church in the Wildwood".

Recitation, "Mother's Favorite Flower" Magdalene and Daniel Brown.  
Anthem, "He Is Risen," Classes 3 and 4.  
Song by School

### ORIGINAL HARDING MAN WANTS NO FEDERAL JOB

Washington, Mar. 24—Edgar Durre of Evansville, ex-state senator, got a glad hand from President Harding when he was presented at the White House Wednesday by Senator Watson and Representative Lohring. The reason for the unusually cordial greeting received was that Durre was an original booster and was Harding campaign manager in the First Indiana district. Yet he does not want a job. Mr. Durre is here on private business.

### SLUMP HITS THE PRODUCE MARKET

Continued from Page One  
The cost of living was very low. A copy of "The Hoosier and Rushville Democratic Archive", dated March 7, 1840, discloses that eggs were then six cents a dozen in Rushville, and butter was quoted at ten to twelve and a half cents a pound. Whiskey was quoted at 25 to 37 cents a gallon. Lard ranged all the way from nothing to six cents a pound and flour was \$1.75 to \$2 per cwt. Potatoes were 25 to 31 cents a bushel and corn 18 to 25 cents. Chickens were 75 cents to one dollar a dozen and beef was two and a half to three cents a pound. Hay was \$5 a ton and oats eighteen to twenty cents a bushel.

Using waste vegetable fibres as a basis, an Australian has invented a composition that can be used where thin wood or stone usually is employed.

### MAUZY'S

### Blouses Add a Gay Costume Note

The modest violet role no longer appeals to Blouses. New Spring models display a colorfulness and gaiety that attracts one. Every Spring Suit craves such a Blouse for best occasions.

### New Spring Footwear For Easter

Attractive new styles, mild weather and lowered prices are inducements to early buying of Spring Footwear. No Easter costume is complete without new Shoes and indeed new Shoes have a magic effect on an old costume. Our stocks include all the various new styles which this season of all seasons means so much in the successful completion of the costume.

## The Interesting Details of an Easter Costume

Analyzed for the last minute shopper.

### SUITS

Spring without a New Suit loses something very dear to women who enjoy being out of doors. This assortment of moderately priced Suits is gratifyingly large and includes the numerous new styles in new shades and new fabrics.

### WRAPS

With frocks so popular a smart Wrap is a necessity that may be purchased without great outlay this season. Cape, wrap and coat lines are each good and one may select a model for one or many purposes from soft and luxurious fabrics.

### FROCKS

Frocks are gay expressions of Spring joyousness. There are scores of new Spring models in silk with a dash that is so satisfying in a Spring Frock. In ever desired style and shade and priced most moderately.

### MAUZY'S

### New Skirts Are Much in Evidence

Spring seems to call out latent ideas, snappy ideas, from clever designers of Skirts and as a result from prunella, velours, wool serge and English plaids the most attractive Skirts await your selection.

### Needed Accessories

A glance through these sections reveals our preparedness. Beautiful new Neckwear to enhance the costume. New 16 button length Silk Gloves in black, white, silver and champagne. Chamoisuede Strap Gloves in gray and brown. Silk Hosiery in black, white, brown and grays at \$1.00, \$1.50, \$2.00 and \$2.50. A wonderful display of wide ribbons for sashes and hair bows. And oh! those captivating veils!

The Mauzy  
Company  
Rushville, Indiana

## TO HUNT DIAMONDS IN S. A. JUNGLES

American Explorers Leave on Expedition in Quest of New Fields For Precious Stones

### BELIEVE IN THEIR SUCCESS

African Mines Are About Exhausted and New Fields Must be Opened—Stones Near Brazil

New York, Mar. 24—William J. LaVarre, James MacDonald and Dudley Lewis recently sailed from this port to search for the undiscovered source of diamonds in British Guiana.

They will outfit at Georgetown and will journey in a houseboat up the Essequibo river and then 170 miles up the tributary of the Mazaruni river. There they will explore the watershed of the Pacaraima mountains on the borders of Guiana and Venezuela.

"We have reason to believe," said La Varre before he left, "that somewhere in this area lie the chimneys from which all diamonds found in sporadic districts of British Guiana have come. This opinion is based on the data collected by other prospectors and explorers and on my own observations in a previous visit."

Diamonds were first found in British Guiana in the middle of the last century. The interior is a tropical jungle. There has been no systematic exploration and all the diamonds found have been washed in gold miner's cradles along the banks of the streams.

The diamond fields of Brazil discovered in 1725, far to the south of Guiana yield only a small output. The British Guiana yield, even with the crude mining methods used, has been no inconsiderable part of the South American output. South American diamonds rank among the world's purest and most brilliant stones.

With the expense of mining in South Africa becoming yearly heavier and the yield decreasing in a way that leads many to believe those rich fields are approaching exhaustion, now is the psychological time, experts declare, for the discovery of new fields.

Considerable deposits of marl have recently been discovered in Finland.

### LOSES FIRST STAGE OF LEGAL CONTEST

Continued from Page One  
County of Rush as is occupied by a mill and mill race between Morgan and Main streets and all portions of said Water street from Main to its terminus at the eastern boundary of said town, be and the same are hereby vacated."

This question came up before the council several months ago when the petition filed by O. L. Carr for the improvement of the street was before them, and the city councilmen decided that the law was interpreted to mean, only the portion used as a water course was vacated, and because the race does not occupy the entire width of 66 feet, the remainder is considered to be Water street.

The question that is to be decided is the meaning of the law, where it says, "so much of Water street." The paving plans call for the pavement of 16 feet along the north bank, which the city maintains is the unoccupied portion of the street, as set out in the law.

The property owners, who have protested against the paving and who have taken the matter to court, maintain that by the deeds of their property, as recorded, their property line extends to the edge of the mill stream, and each plaintiff maintains that if the street improvement is put through it will mean 16 feet of their property, and that each will suffer a financial loss, thereby, which is set out in their complaint.

### ELKS ADDITION TO BE ERECTED

Continued from Page One  
voted to make it brick so as to conform with the present building.

The lodge is said to be financially able to furnish the addition and no additional capital will be required for that purpose. There has been a strong sentiment in the lodge for gymnasium features, which accounts for the favorable vote for a basement. Members of the lodge believe that it will not be long until a swimming pool, bowling alley and gymnasium equipment is installed in the basement, once the addition is constructed.

With a membership of more than two hundred, the need of more room for social functions has been felt by the lodge for many years. The present Elks club is not equipped so that the lodge can entertain all of its members and their families. The quarters are cramped and facilities for banquets have been a handicap to the lodge for many years.

Nancy, France, is planning to utilize water power from the Rhine river.

## GERMAN COMMUNISTS FIGHT FOR CONTROL

Institute Reign of Terror Resulting in Destruction of Property and 25 Deaths

### POLICE ARE OVERPOWERED

(By United Press)

Berlin, March 24.—German communists fought today for control of the government, resulting in property destruction and 25 deaths following the trail of demonstrations which extended from Hamburg to the mining region in the south and to the outskirts of Berlin.

The police fought the Reds off but in some cases were overpowered. They were forced to entrench at Eialben. Hand grenades, rifles and machine guns were used in the fight. Banks were robbed and public buildings were dynamited. Mines were flooded and employees who desired to work were held up by the communists.

Public officials appealed to the Berlin government for military aid. The cabinet went into session with these appeals and read secret reports from the districts where the fighting occurred.

The Saxon town of Eisleben was made concentrating center for the communist rioters today. Reports from officials headquarters said the worst was expected. Thousands of persons from all parts of that part of Germany were flocking to the city, most of them carrying arms. Martial law is likely to be declared.

### Canibals Still Eat Humans, Says "King of Monkeys"

New York, March 24.—Reverend Roger S. Guptill, Methodist missionary to the Congo Belge named by the cannibalistic natives, "King of the Monkeys," sailed recently from New York for England enroute to his mission station in the heart of the African jungles. Rev. Guptill received this name when with his wife and infant son he went 11 days' trek into the bush country north of the end of the Capa-to-Cairo Railroad to the village of Kabongo paramount chief of the Luba cannibals.

Mrs. Guptill and her baby were the first white woman and child to venture into that country, and all along the way they were the objects of the greatest curiosity by the natives, some with poisoned ar-

rows and spears. The Guptill infant was carried in a chest with screen wire sides, under lock and key/suspended from a pole which rested on the shoulders of two native carriers.

At the capital of the Chief Kabongo, the Guptills lived for six months during which time the minister won many converts to Christianity. His church was built by convicted cannibals condemned as a penalty for shooting poisoned arrows at the chief's soldiers who came to investigate the disappearance of eighteen native carriers from the caravan of a Belgian official.

Rev. Guptill says the natives eat each other as much as formerly, but they take care to burn the bones to powder which they scatter in the swamps, thus hiding all trace of their deed.

Guptill was "King of the Monkeys", a term of respect for his wisdom, the natives holding a crude form of the Darwinian theory that monkeys are wiser than men.

### Chinese Family Relations.

There is no such species as the "old maid" in China. The lot of the concubine is not, generally speaking, hard; and the position is respectable. A concubine is ordinarily taken in default of issue from the wife. The children of concubines are legitimate. A man would not dare to brace public opinion or the wrath of his wife and her relations by taking a concubine against his wife's wishes. Father and mother are equally venerable in the eyes of the child; the father is "the stern one" and the mother "the gentle one," but both are notoriously indulgent to their children.

## OLD STANDBY, FOR ACHES AND PAINS

Any man or woman who keeps Sloan's handy will tell you that same thing

ESPECIALLY those frequently attacked by rheumatic twinges. A counter-irritant, Sloan's Liniment scatters the congestion and penetrates without rubbing to the afflicted part, soon relieving the ache and pain. ## HARDING REVIVES NEW SOCIAL LIFE

New President Looked Upon to Break Into Washington Society Which Has Been Dead 8 Years

**CITY IS SOCIAL HUNGRY**

Brilliant Social Functions in Former Administration Were Missed During Wilson's Terms

Washington, Mar. 24—Brilliant uniforms and evening dress, comparatively little used here during the Woodrow Wilson regime, are being slicked up in anticipation of the resumption of the colorful social whirl under the present administration.

Official Washington has passed through eight lean social years and is hungry.

The absence of the gaiety that characterized past administrations was attributed to the war, Wilson's illness and the Wilson personality. White House functions were comparatively few in number during the first four Wilson years and they were rare events indeed during the last four years. The aloofness of the White House was reflected to a certain extent by the various foreign legations, which maintained a measure of gaiety until the war split the colony into two groups.

Signing of the peace pact by the various European governments involved in the war revived the social life of the embassies, but the indifferent attitude of the White House, always regarded as the social leader served as a check to a return to the pre-Wilson splendor.

Unusually brilliant social functions characterized the Roosevelt administration, when state dinners in the White House and dances by the younger set stimulated the social life of the embassies. Under the warming influence of the White House and the sprightly Roosevelt children gay functions, crowded the evenings at the embassies, where representatives of all nations, resplendent in gorgeous uniforms, fairly bristling with medals and other decorations, gave an air of brilliancy to the events.

The Hardings have hardly inhabited the White House long enough to make their way about the numerous rooms and corridors without the aid of guides, but the impression has been received by the socially-famished that a return to the old days is in prospect.

White House functions have more than a social significance. They are regarded by the initiate as a barometer of pending events. The invitation lists are closely scanned for clues to coming national and international coups for certain groupings of cabinet members, senators, congressmen and ambassadors may forecast important developments.

Resumption of dances and dinners at the White House is being watched with keen interest aside from the political and social phases. Will the shimmy, the toddle and other "advanced" dances of the past few years be permitted in the Presidential residence? Or will the president, through the master of ceremonies, ban the shoulder-shaking, heel-clicking and floor-tapping dances and decree a return to the very proper and stately dances of the past decade?

The foregoing questions are engaging the attention of the families of our own statesmen and those of the ambassadors

## SEVEN YEAR ITCH STRIKES COLUMBUS

The old time itch, known to grandmother and grandfather and to the older generations as the "seven year itch", is sojourning in Columbus and vicinity again after an absence of several years. It is said that so long a time has elapsed since this old malady has been in Columbus that some of the middle aged physicians have never seen a case of it, until recently.

The "seven year itch" does not stay with the person for that length of time physicians say, but it is very hard to get rid of. However, if proper treatment is followed, a person can rid himself of the disease in about four days.

King & Turner

THE SAFE WAY

Have your car examined or overhauled before beginning its regular spring and summer use.

Cars get more or less out of order during the severe winter weather, and do not work as perfectly as they should. This additional wear and strain of the affected parts means increased expense to you if allowed to continue.

Failure to correct these defects has caused the wrecking of many cars. We are fully equipped to take care of any car.
